

Corners Of My Mind

By Joe Reilly

There's a circus going on in the corner of my mind/there's a circus in the lonely corner of my mind/driving around its surprising what you'll find/there's a circus in the lonely corner of my mind/me and my best friend out to take a ride/there's a circus in the lonely corner of my mind/there's a guy that looks like Mr. T there/there's some other guys with disfigured teeth there/I had a nightmare/I was stuck there/at the circus in the lonely corner of my mind/

My mind is a circle/there's no corners of my mind is a circle/there's no corners of my mind is a circle/there's no corners of my mind is a circle/there's no corners of my mind/

Corners of my mind/surprising what you'll find/out to take a ride/corners of my mind/

There's a Jesus in the corner of my mind/there's a Buddha in the corner of my mind/they're both dancing and they're both crucified/there's a Jesus in the corner of my mind/another sacred piece of the divine/there's a Buddha in the corner of my mind/

My mind is a circle/there's no corners of my mind is a circle/there's no corners of my mind is a circle/there's no corners of my mind is a circle/there's no corners of my mind/

Corners of my mind/we're all crucified/piece of the divine/corners of my mind/

There's six billion human beings in the world/six billion ways of being in the world/three billion boys/three billion girls/six billion ways of seeing in the world/

The world is a circle/there's no corners in the world is a circle/there's no corners in the world is a circle/there's no corners in the world is a circle/there's no corners of my mind/

Corners of my mind/surprising what you'll find/out to take a ride/corners of my mind/
