

True Nature  
By Joe Reilly and Ms. Rosman's Class  
University Prep Academy

Nature makes me feel happy  
Nature makes me feel good  
Nature makes me feel happy  
Nature makes me feel like I should

Like my true nature  
My true nature  
My true nature  
My true nature

My true nature is like the sun  
When I'm smiling, laughing, and having  
fun  
My true nature is like the moon light  
In the middle of the night I'm shining  
bright

Its my true nature  
My true nature  
My true nature  
My true nature

Where can we find nature? It's not that  
hard  
Let's start with our Grandmother's own  
backyard  
She grows tomatoes, pumpkins, and  
watermelons  
And beautiful flowers that I love to be  
smellin'  
I'm tellin' you about a natural place  
The way a garden brings a smile to my  
face  
We can grow strawberries, carrots, and  
corn  
My Grandma's garden was there before I  
was even born  
She knows the wisdom of Mother Earth  
And she's known me since before my  
birth

She knows my true nature

My true nature  
My true nature  
My true nature

Turn off your electronics  
No ipods or cell phones  
Find your true nature  
Come back to your true home  
It's peaceful by the ocean  
Enjoy the pretty view  
Sitting and breathing in nature  
Is all we need to do  
Be still and listen  
To the wind and the birds singing  
They bring us back to our true nature  
Like the meditation bell ringing

To our true nature  
Our true nature  
Our true nature  
Our true nature

When we fall or we get hurt  
We need to feel the sunshine and the dirt  
Let go of your worries and your cares  
Climb a pear tree and eat some pears  
Come back to the circle in the sun  
Enjoy the earth and have some fun  
You will feel better and relieved  
When you play in the trees and throw  
some leaves

Your true nature  
Your true nature  
Your true nature  
Your true nature

Nature makes me feel happy  
Nature makes me feel peace  
Like being on a relaxing island  
My mind is at ease

My true nature.
